- **Subject :** WizFi210 & WizFi220 Versions according to Antenna Type

Dear Partners

For the customer's convenience, WIZnet will supply the WizFi210 and WizFi220 in three versions according to antenna type. Please refer to below information, and clarify the version when you place the order for WizFi210 and WizFi220.

1. Module Versions

Module Versions	Description
WizFi210_CON WizFi220_CON	<p>It includes U.FL connector and 10pF capacitor on the upward antenna path.</p> 
WizFi210_CA WizFi220_CA	<p>It includes chip antenna and 0 ohm resistor on the left antenna path.</p> 
WizFi210_EX WizFi210_EX	<p>It does not include any antenna or antenna connector. 0 ohm resistor is mounted on the right antenna path. Customers need to match the antenna impedance in their board for their own antenna connection.</p>
